

SX - SXT SEALED 2 AND 3 JAWS GRIPPERS

IP67

A parallel gripper, specifically designed to provide the better performances in harsh environments, internally sealed to preserve from dust, oil and also one meter underwater with protection class IP67.

These grippers simply have no internal volumes. So there is no risk of aspiration caused by the pump effect of a variable volume.

	SX4020	SX4040	SX5030	SX5060	SX6340	SX6380
Total stroke (± 0.5 mm)	20 mm	40 mm	30 mm	60 mm	40 mm	80 mm
