International projects for EOAT

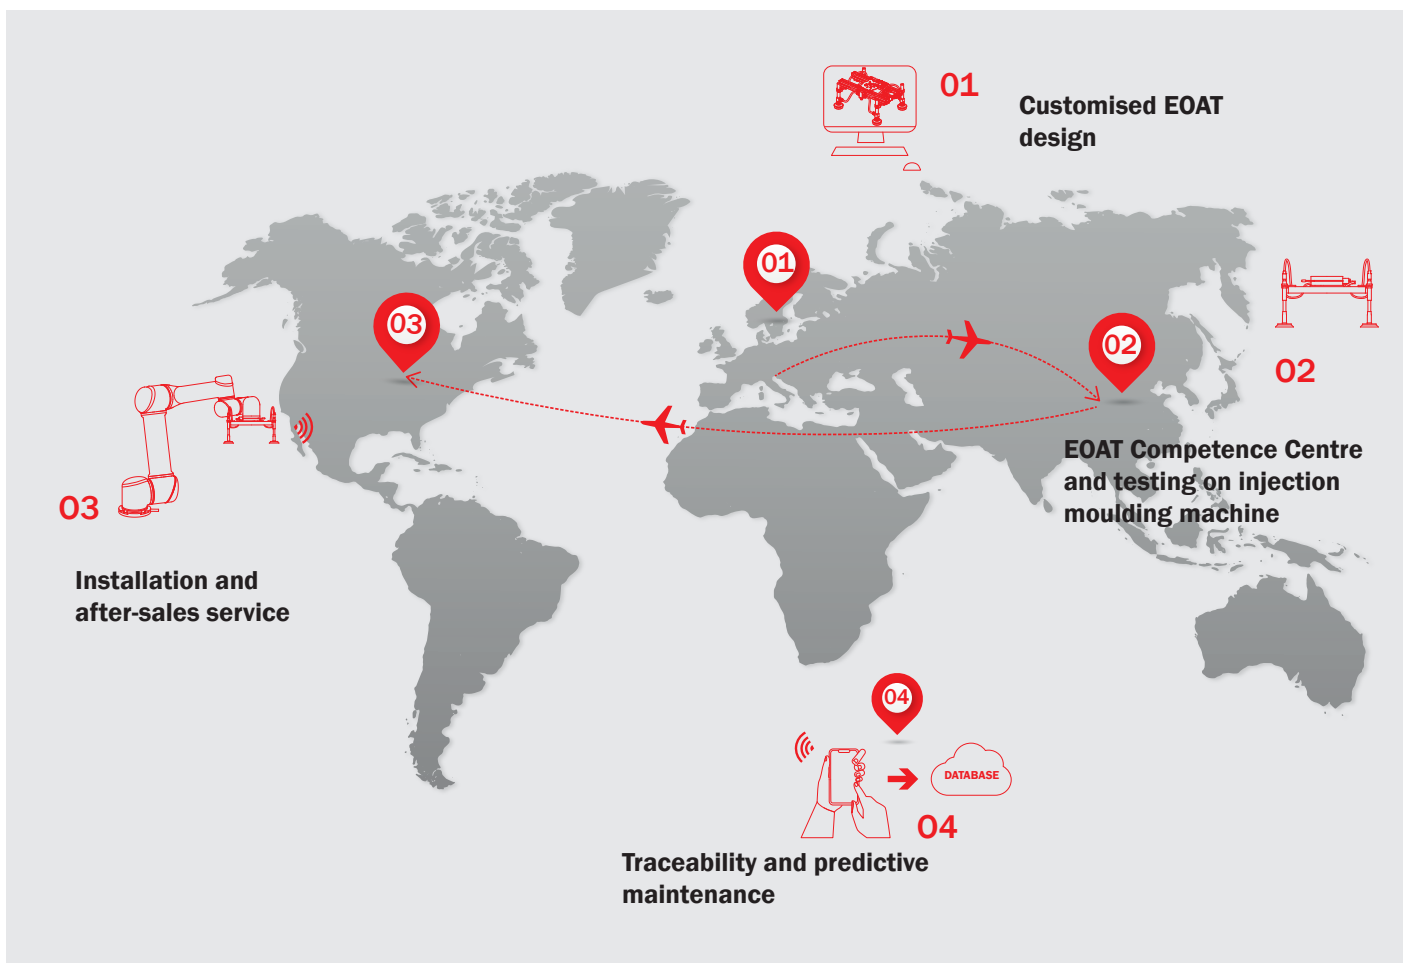

GLOBAL COMPANIES

Gimatic Global Services

Gimatic is able to provide a global sales support and technical assistance services that translate into important benefits for customers in terms of standardisation and supply chain optimisation.

All this thanks to a widespread network of more than 50 Automation Centres and 2 Competence Centres, coordinated by the head office in Italy.

Services for international projects:

Thanks to its qualified staff and its widespread network, Gimatic is able to offer **customised design of EOATs** anywhere in the world.

Gimatic can optimise the management of projects that require mould testing and installation in different areas by coordinating several Automation Centres.

Thanks to **RFID and Mould Monitoring systems**, traceability and data management is 100% guaranteed.

The localised and standardised worldwide **after-sales service** can support the customer even in the case of relocation of production equipment to plants other than the initial installation site.

We are Global!

Gimatic is able to support all steps of EOAT manufacturing: design, assembly, mould testing, installation worldwide.

- > Product and service standardisation.
- > Globalisation of pre- and after-sales service.
- > Reduction of the number of suppliers.
- > Easy access to customised orders and programmes.
- > Centralised coordination of international projects.
